

TABLE OF CONTENTS

Preface	i
Acknowledgements	ii
Table of Contents	iii
Section 1: Introduction	1-1
1.1 Background and Purpose.....	1-1
1.1.1 Goals of the Program.....	1-2
1.2 List of Definitions, Abbreviations and Acronyms.....	1-3
1.2.1 Definitions	1-3
1.2.2 Abbreviations and Acronyms	1-8
1.3 Construction Site Stormwater Runoff Control Management	1-10
1.3.1 Site Construction Stormwater Management Run-off Control Regulations.....	1-10
1.3.1.1 Federal	1-10
1.3.1.2 State	1-10
1.3.1.3 City of Bowling Green.....	1-10
1.3.2 Site Construction Pollution Sources.....	1-16
1.3.2.1 Water Erosion	1-16
1.3.2.2 Stream and Channel Erosion	1-17
1.3.2.3 Wind Erosion	1-17
1.3.2.4 Other Storm Water Pollutants and Impacts	1-17
1.3.3 Factors Influencing Erosion.....	1-17
1.4 Erosion Prevention and Sediment Control BMP Selection Process.....	1-18
1.4.1 BMP Objectives.....	1-18
1.4.2 Factors Influencing the Need for BMPs	1-19
1.4.3 BMP Categories	1-20
1.4.4 Selecting BMPs for Construction Site Management (Sections SPD, EPP, SMP).....	1-21
1.4.4.1 Minimize Disturbed Areas.....	1-23
1.4.4.2 Stabilize Disturbed Areas	1-23
1.4.4.3 Site Perimeter.....	1-24
1.4.4.4 Internal Swales and Ditches.....	1-24
1.4.4.5 Internal Erosion	1-25
1.4.4.6 Stormwater Inlets and Outfalls	1-25
1.4.5 BMPs for Good House Keeping (Section GHP)	1-26
1.5 Post Construction Storm Water Control.....	1-26
1.5.1 Post Construction Regulations	1-26
1.5.1.1 Federal	1-26
1.5.1.2 State	1-26
1.5.1.3 City of Bowling Green.....	1-26
1.5.1.3.1 Applicability	1-26
1.5.1.3.2 Design.....	1-27
1.5.1.3.3 Operations and Maintenance	1-27

	1.5.1.3.4	Proprietary BMPs	1-29
	1.5.1.3.5	Design Guidance for Water Quality Treatment....	1-30
	1.5.1.3.6	Performance Standards for Proprietary BMPs	1-31
	1.5.1.3.7	Testing Requirements for Proprietary BMPs	1-31
	1.5.2	Targeted Pollutants and Their Impacts	1-33
	1.5.2.1	Total Suspended Solids.....	1-34
	1.5.2.2	Nutrients	1-34
	1.5.2.3	Oxygen Demanding Substances	1-35
	1.5.2.4	Metals	1-35
	1.5.2.5	Pesticides	1-35
	1.5.2.6	Oil, Grease and Fuels.....	1-35
	1.5.2.7	Other Toxic Chemicals	1-35
	1.5.2.8	Miscellaneous Wastes.....	1-35
	1.5.3	Other Impacts by Development.....	1-36
	1.5.4	Post-construction Stormwater Management’s Ties to Land Use ...	1-36
	1.5.5	Post Construction BMP Selection	1-36
1.6		Post Construction BMP Design.....	1-44
	1.6.1	Treatment Approaches and Selection Requirements.....	1-44
	1.6.2	Stormwater Quantitative Design Criteria	1-44
	1.6.3	First Flush.....	1-44
	1.6.4	Stormwater Quality Design Criteria.....	1-44
	1.6.5	Water Quality Volume	1-44
	1.6.6	Recharge Volume	1-45
	1.6.7	Channel Protection Storage Volume	1-45
	1.6.8	Waterway Buffers.....	1-46
1.7		Residential and Home Owner Pollution Control.....	1-47
1.8		How to Use this Manual.....	1-47
Section 2:		Erosion Protection and Sediment Control	2-1
	2.1	Overall Requirements.....	2-1
	2.2	Minimize Disturbed Areas	2-1
	2.3	Site Perimeter Controls	2-2
	2.4	Internal Erosion and Drainage Design	2-2
	2.5	Inspection and Maintenance	2-3
	2.6	EPSC Preparation Guidelines.....	2-3
	2.7	Storm Water Pollution Protection Program.....	2-4
Section 3:		Construction Site Management Practices for Stormwater Quality	3-1
	3.1	Site Planning and Design Practices – Fact Sheets	
	SPD – 01	Protecting Sensitive Features	
	SPD – 01.1	Stream Corridors	
	SPD – 01.2	Wetland Preservation	
	SPD – 01.3	Steep Slopes and Highly Erodible Lands	

- SPD – 01.4 Karst

- SPD – 02 Minimizing Impervious Surfaces
 - SPD – 02.1 Parking Lot Design
 - SPD – 02.2 Street Design
 - SPD – 02.3 Cul-de-sac Design
 - SPD – 02.4 Permeable Pavements
 - SPD – 02.5 Open-space Preservation
 - SPD – 02.6 Construction Phasing

- SPD – 03 Vegetative Practices
 - SPD – 03.1 Vegetative Buffers
 - SPD – 03.2 Disturbed Area Stabilization (Temporary Seeding)
 - SPD – 03.3 Disturbed Area Stabilization (Permanent Seeding)
 - SPD – 03.4 Disturbed Area Stabilization (Mulch)
 - SPD – 03.5 Disturbed Area Stabilization (Sodding)
 - SPD – 03.6 Erosion Control Mats/ Blankets

- SPD – 04 Land Use Planning
 - SPD – 04.1 Covenants
 - SPD – 04.2 Setbacks and Buffers
 - SPD – 04.3 Conservation Easements

- 3.2 Erosion Prevention Practices (EPP) - Fact Sheets**
 - EPP – 01 Tire Washing Facility
 - EPP – 02 Construction Road Stabilization
 - EPP – 03 Stabilized Construction Entrance
 - EPP – 04 Buffer Zones
 - EPP – 05 Temporary Seeding
 - EPP – 06 Permanent Seeding
 - EPP – 07 Sodding
 - EPP – 08 Surface Roughening
 - EPP – 09 Top Soiling
 - EPP – 10 Mulching
 - EPP – 11 Nets and Mats
 - EPP – 12 Geotextiles
 - EPP – 13 Terracing
 - EPP – 14 Soil Binders (Reserved for future use)

- 3.3 Sediment Management Practices (SMP) - Fact Sheets**
 - SMP – 01 Check Dams
 - SMP – 02 Silt Fence
 - SMP – 03 Brush or Rock Filters and Continuous Berms
 - SMP – 04 Sediment Traps
 - SMP – 05 Temporary Sediment / Detention Basin
 - SMP – 06 Bank Stabilization
 - SMP – 07 Rip-rap
 - SMP – 08 Channel Linings
 - SMP – 09 Temporary Diversions, Drains and Swales
 - SMP – 10 Filter Strips
 - SMP – 11 Temporary Inlet Protection

- SMP – 12 Temporary Outlet Protection
- SMP – 13 Slope Drains

3.4 Good Housekeeping Practices (GHP) - Fact Sheets

- GHP – 01 Dewatering Operations
- GHP – 02 Paving Operations
- GHP – 03 Structure Construction and Painting
- GHP – 04 Material Delivery, Storage, and Use
- GHP – 05 Spill Prevention and Control
- GHP – 06 Solid Waste Management
- GHP – 07 Hazardous Waste Management
- GHP – 08 Contaminated Soil Management
- GHP – 09 Concrete Waste Management
- GHP – 10 Sanitary/Septic Waste Management
- GHP – 11 Vehicle and Equipment Cleaning
- GHP – 12 Vehicle and Equipment Fueling
- GHP – 13 Vehicle and Equipment Maintenance
- GHP – 14 Employee/Subcontractor Training
- GHP – 15 Pesticides, Herbicides, and Fertilizer Use
- GHP – 16 Dust Control and Tracking
- GHP – 17 Maintenance of Collection Facilities and Appurtenances
- GHP – 18 Preservation and Maintenance of Existing Vegetation
- GHP – 19 System Flushing

3.5 Residential and Homeowner Practices (RHP) – Fact Sheets

- RHP – 01 Non-Storm Water Discharge to Storm Drains
- RHP – 02 Vehicle Washing
- RHP – 03 Vehicle Maintenance and Repairs
- RHP – 04 Pesticides and Fertilizers
- RHP – 05 Landscape Irrigation and Lawn Watering
- RHP – 06 Household Hazardous Waste
- RHP – 07 Sanitary Sewer Laterals and Septic Tanks
- RHP – 08 Pet and Animal Waste
- RHP – 09 Slope and Streambank Stabilization
- RHP – 10 Swimming Pools and Spas
- RHP – 11 Boats and Marinas
- RHP – 12 Tips for Wet Basements and Crawl Spaces

Section 4: Post-Construction Best Management Practices..... 4-1

4.1 Stormwater Pollution Prevention (Non-Structural) – Fact Sheets

- SPP – 01 Education
Training, Standard Operating Procedures
- SPP – 02 Low-impact Development
Landscape and Vegetation Control Practices, Bioretention and Infiltration, Green Parking, Green Rooftop, Urban Forestry, Maintenance Activities

4.2 Stormwater Pollution Treatment Practices (Structural) – Fact Sheets

- PTP – 01 Filtration Systems
Surface Sand Filter, Underground Sand Filter, Perimeter Sand Filter, Organic Sand Filter, Pocket Sand Filter, Bioretention

PTP – 02	Example Open Channel Systems <i>Dry Swale, Wet Swale</i>
PTP – 03	Example Stormwater Ponds <i>Micropool Extended Detention Pond, Wet Pond, Wet Extended Detention Pond, Multiple Pond System, Pocket Pond</i>
PTP – 04	Example Stormwater Wetlands <i>Shallow Wetland, Extended Detention Shallow Wetland, Pond/Wetland System, Pocket Wetland</i>
PTP – 05	Example Infiltration Systems <i>Infiltration Trench, Infiltration Basin</i>
PTP – 06	Example Water Quality Units <i>Hydrodynamic Separators, Filtration, Continuous Deflection</i>
PTP – 07	Grease Management
PTP – 08	Extended Detention / Retention Dry Basins <i>Detention Basin with gravity outfall, Retention Basin with Drywell outfall</i>
PTP – 09	Oil Grease / Water Separator

- Appendix A: List of Related Websites / Technical Resources**
- Appendix B: Stormwater Ordinance and Supporting Material**
- Appendix C: EPSC Plans**
- Appendix D: BMP Plans**
