### Assistant City Manager/CFO Commentary

#### **Revenue Highlights:**

The total FY2024 amended General Fund revenue budget is \$97,460,000. Through December, \$50,578,000 has been collected, or 51.9% of the amended revenue budget. The FY2024 adopted revenue budget was increased by +9.8% over the FY2023 adopted budget, aligning with new and expanded business announcements. The most significant components of the revenue budget include withholding fees, net profits, and property taxes. Net Profits, building fees, and the all other category show a negative or nominal decrease for December FY2024 vs. December FY2023. The other categories reflect increases over the prior year. Please note that approx. 39% of the "all other" category at this point in the year is composed of a net reversal of a prior year-end fair market value adjustment on investments. It is an "on paper" only revenue that does not constitute cash collections.

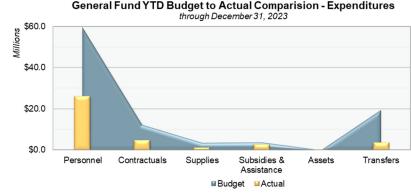

The total amended FY2024 General Fund expenditure budget is \$100,640,000, which includes carryover projects and purchase orders from the prior fiscal year and approved current year budget amendments. The FY2024 amended expenditure budget is +\$6,697,000, or +7.1%, more than the FY2023 amended budget through the sixth month of the fiscal year. The increase in the General Fund amended budget impacts most expenditure categories, including: Personnel +10.2%, Supplies +1.5%, and Transfers +32.9%.

The Employee Health Care Trust Fund as a whole includes a budgetary increase of \$124,000, or +1.5%, over the prior year. The largest expenses of the fund are claims for medical, dental, vision, and prescription costs. These costs are also budgeted to narrowly increase by \$41,000 or +0.6% to fully cover rising costs

to operate the on-site health clinic and the City's self-funded employee health insurance program.

### **CAPITAL IMPROVEMENT PROGRAM**

The FY2024 Adopted Capital Improvement Program (CIP) totals nearly \$20,899,000, excluding debt, for all City departments with over 48% of that amount represented by General Fund supported projects. CIP costs are defined as those costing over \$25,000 with an expected useful life of at least five years. The CIP is also categorized by the impact to the City, including: Community Livability, Facilities & Equipment, Technology Improvements, and Traffic & Roads. Multiple funding sources are utilized to provide the budget for CIPs, including from the General Fund, Special Revenue funds, Capital Project funds, and grants.

### **Featured Capital Project**

The Greenways Expansion Program was created to identify, prioritize, and close critical gaps in the City's multi-use path network. FY2023 was the third year of funding for this project and \$400,000 was allocated in the budget. This program is managed by the Public Works Department Planning & Design Division.
