SPOT THE DIFFERENCE!

Can you spot the 9 differences between these two pictures?

RECYCLING

Recycling is one of the best ways to protect our Earth.
Recycling is when used materials are turned into new items.

Used aluminum cans can be turned into brand new cans!

Used glass bottles and jars can be turned into brand new bottles and jars!

Used plastic bottles can be turned into yard furniture!

Old newspapers can be turned into new paper and paper towels!

EGG CARTON FLOWER

This cute spring craft can also be made from mostly recycled materials.

What you will need:

- * Paint
- * Egg Carton (not foam)
- * Paper Straw
- * Pom Pom or Button
- * Scissors
- Glue
- * Paint Brush

How to make:

- * Cut out four containers of the egg carton. Trim around the edges so that it gives it a rounder shape for the petals of the flower.
- * Squirt some acrylic paint colors onto a paper plate and paint the flowers.
- * After the paint is dried, attach the stem of the flower by gluing the paper straw to the back.
- * Next, attach the center of the flower. You can use a pom pom, a button, even a penny. Glue it to the center of the painted egg center.
