

City of Bowling Green, Kentucky Brownfields Redevelopment Program

EYESORE TO ASSET

A brownfield is defined as a property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Challenges unique to brownfields redevelopment include environmental liability concerns, financial barriers, cleanup considerations, and reuse planning. Through federal grant funding, the EPA's Brownfields Program removes some of these barriers and serves as an empowerment tool for land and community revitalization.

PROGRAM MISSION

To redevelop distressed properties and promote revitalization of underserved neighborhoods in Bowling Green through the identification and assessment of brownfield sites, and by collaborating with community stakeholders to design cleanup and redevelopment strategies.

Create quality workforce housing

Support economic development and job creation opportunities

Promote healthy neighborhoods

PROGRAM CAPABILITIES

Through key partnerships and federal funding, the BRP is able to offer developers and community stakeholders the following services to support redevelopment efforts:

- Phase I & II Environmental Site Assessments
- Cleanup Planning
- Area-wide Planning
- Project Financing Strategies
- Grant Support for Leveraging other Funding Sources
- Technical Assistance
- Education and Regulatory Guidance
- Community Engagement
