a. Where salaries, wages, commissions and other trade compensations are paid for any business, trade, occupation, profession or other activity in the City or net profits earned within the City, such license tax shall be computed by obtaining the percentage which the compensation or net profit
bears to the total compensation or net profit.

b. Except as provided in subsection e. of this Section, net profit shall be apportioned as follows:

1. For business entities with both payroll and sales revenue in more than one (1) tax district, by multiplying the net profit by a fraction, the numerator of which is the payroll factor, described in subsection c. of this Section, plus the sales factor, described in subsection d. of this Section, and the denominator of which is two (2); and,

2. For business entities with sales revenue in more than one (1) tax district, by multiplying the net profit by the sales factor as set forth in subsection d. of this Section.

3. For the purposes of this Subchapter, the business entity shall file an apportionment form provided by the City of Bowling Green.

c. The payroll factor is a fraction, the numerator of which is the total amount paid or payable in the City during the tax period by the business entity for compensation and the denominator of which is the total compensation paid or payable by the business entity everywhere during the tax period. Compensation is paid or payable in the City based on the time the individual's service is performed within the City.

d. The sales factor is a fraction, the numerator of which is the total sales revenue of the business entity in the City during the tax period and the denominator of which is the total sales revenue of the business entity everywhere during the tax period.

1. The sale, lease or rental of tangible personal property is in the City if:

   (a) The property is delivered or shipped to a purchaser, other than the United States government, or to the designee of the purchaser within the City regardless of the f.o.b. point or other conditions of the sale; or,

   (b) The property is shipped from an office, store, warehouse, factory or other
place of storage in the City and the purchaser is the United States government.

2. Sales revenues, other than revenues from the sale, lease or rental of tangible personal property or the lease or rental of real property, are apportioned to the City based upon a fraction, the numerator of which is the time spent in performing such income-producing activity within the City and the denominator of which is the total time spent performing that income-producing activity.

3. Sales revenue from the sale, lease or rental of real property is allocated to the tax district where the property is located.

e. If the apportionment provisions of this Section do not fairly represent the extent of the business entity's activity in the City, the business entity may petition the City or the City may require, in respect to all or any part of the business entity's business activity, if reasonable:

1. Separate accounting;

2. The exclusion of any one (1) or more of the factors;

3. The inclusion of one (1) or more additional factors which will fairly represent the business entity's business activity in the City; or,

4. The employment of any other method to effectuate an equitable allocation and apportionment of net profits.

f. When compensation is paid or payable for work done or services performed or rendered by an employee, both within and without the City, the license tax shall be measured by that part of the compensation paid or payable as a result of work done or service performed or rendered within the City. The license tax shall be computed by obtaining the percentage which the compensation for work performed or services rendered within the City bears to the total wages and compensation paid or payable. In order for the City to verify the accuracy of a taxpayer's reported percentages under this Subsection, the taxpayer shall maintain adequate records.
All partnerships, S corporations and all other entities where income is “passed through” to the owners are subject to the provisions of this Subchapter. The occupational license tax imposed in this Subchapter is assessed against income before it is “passed through” these entities to the owners.

h. If any business entity dissolves, ceases to operate or withdraws from the City during any taxable year, or if any business entity in any manner surrenders or loses its charter during any taxable year, the dissolution, cessation of business, withdrawal, or loss or surrender of charter shall not defeat the filing of returns and the assessment and collection of any occupational license tax for the period of that taxable year during which the business entity had business activity in the City.

i. If a business entity makes or is required to make a federal income tax return, the occupational license tax shall be computed for the purposes of this Subchapter on the basis of the same calendar or fiscal year required by the federal government, and shall employ the same methods of accounting required for federal income tax purposes.

b. If the employer withholds, but fails to pay the amounts withheld to the City, the lien shall commence as on the date the amounts withheld were required to be paid to the City. If the employer fails to withhold, the lien shall commence at the time the liability of the employer is assessed by the City.

e. Every employer required to deduct and withhold tax under this Section shall annually on or before February 28 of each year complete and file on a form furnished or approved by the City a reconciliation of the occupational license tax withheld where compensation is paid or payable to employees. f. Every employer shall furnish each employee a statement on or before January 31 of each year showing the amount of compensation and occupational license tax deducted by the employer from the compensation paid to the employee for payment to the City during the preceding calendar year.

g. An employer shall be liable for the payment of the tax required to be deducted and withheld under this Section.

h. Not withstanding the provisions of this Section, every employee receiving compensation in the City subject to the tax imposed under this Subchapter shall be personally liable for any amount due. In all cases where the employer does not withhold the tax levied under this
Subchapter from the employee, such employee or employees shall be responsible for filing with the City each quarter in the same manner as if they were the employer.

The City may also require copies of reports of adjustments made by the federal government.

c. Every business entity subject to an occupational license tax governed by the provisions of this Subchapter shall keep records, render under oath statements, make returns and comply with rules, as the City from time to time, may prescribe. Whenever the City deems it necessary, the City may require a business entity, by notice served to the business entity, to make a return, render statements under oath or keep records, as the City deems sufficient to determine the tax liability the business entity.

d. The City may require, for the purpose of ascertaining the correctness of any return or for the purposes of making an estimate of the taxable income of any business entity, the attendance of a representative of the business entity or of any other person having knowledge in the premises.

e. The full amount of the unpaid tax payable by any business entity, as appears from the face of the return, shall be paid to the City at the time prescribed for filing the occupational license tax
return, determined without regard to any extension of time for filing the return. Where any portion of the net profit license fee so due shall have been deducted at the source, credit for such amount shall be deducted from the amount shown to be due and only the balance, if any, shall be due and payable at the time of the filing of the net profit license fee return as hereinabove provided.

f. Whenever the City deems it necessary, the City may by notice served to the business entity require persons who make Federal Form 1099 “non-employee compensation” payments to persons other than employees for services performed within the City, to maintain records of such payments and to report such payments to the City. Said payments must be reported on by remitting Federal Form 1099 of the year following the close of the calendar year in which the non-employee compensation was paid. If a business entity or person is not required to remit Federal Form 1099 to the IRS, including but not limited to payments less than six hundred ($600) dollars, they are still liable to remit the equivalent information to the City. b. If the time for filing a return is extended, the business shall pay as part of the tax an amount equal to twelve (12%) percent per annum simple interest on the tax shown due on the return, but not been previously paid, from the time the tax was due until the return is actually filed and the tax paid to the City. 2. An estimated fee in an amount equal to the total liability for the most recent year; and,

b. An employee who has compensation attributable to activities performed outside the City, based on time spent outside the City, whose employer has withheld and remitted to this City, the occupational license tax on the compensation attributable to activities performed outside the City may file for a refund within two (2) years of the date prescribed by law for the filing of a return.
